

PASTA LA VISTA

RESTAURANT

WHAT WEBSITE DO WE MAKE?

We make a website about Italian restaurant called “PASTA LA VISTA”.

WHY DO WE MAKE THIS WEBSITE?

We love Italian food, and we want to spread our Italian food to others. To know the true charm of Italian food.

DATABASE

The screenshot shows the phpMyAdmin interface for managing a MySQL database. The left sidebar lists databases: New, information_schema, mysql, performance_schema, phpmyadmin, project, test, and a local copy of the Stack Overflow database containing carts, product, and users tables. The main area displays the 'Structure' tab for the Stack Overflow database. It shows three tables: carts (0 rows, MyISAM, utf8_general_ci), product (5 rows, MyISAM, utf8_general_ci), and users (5 rows, InnoDB, utf8_general_ci). A summary row indicates 10 InnoDB tables with a total size of 35.2 KiB and 0 B overhead. Below this, there's a 'Create new table' form with 'Table name' and 'Number of columns' fields set to 4, and a 'Create' button. The top navigation bar includes links for Structure, SQL, Search, Query, Export, Import, Operations, Privileges, Routines, Events, Triggers, Tracking, Designer, and Central columns.

USER DATABASE

The screenshot shows the phpMyAdmin interface for a MySQL database named 'PROJECT'. The left sidebar lists databases: information_schema, mysql, performance_schema, phpmyadmin, project, test, and two tables under project: carts and users. The 'users' table is selected, displaying 5 rows of data.

Below the table, there are buttons for 'Check all', 'With selected:', 'Edit', 'Copy', 'Delete', and 'Export'. The bottom section contains 'Query results operations' buttons: Print, Copy to clipboard, Export, Display chart, and Create view. A 'Bookmark this SQL query' section allows labeling the query and selecting 'Let every user access this bookmark'.
